Parent/Guardian Permission_____Date_____

Sponsoring Teacher Signature_____Date_____

Students should return completed form to the sponsoring teacher.

Educational field trips can enrich and expand the curriculum, strengthen observation skills by immersing students into sensory activities, increase students' knowledge in a particular subject area and expand students' awareness of their own community. As a result, teachers sometimes take advantage of these opportunities by planning meaningful and relevant trip experiences for our students. It is important for both parents/guardians and students to understand that student eligibility for a field trip is not automatic. Students must meet eligibility requirements and follow certain procedures before they will be permitted to participate. In order to be eligible for a field trip, students must complete a field trip form in which the following steps are involved:

1. The student's name, field trip title, and the date and times of the field trip are recorded.
2. The student must acquire permission from his/her parents/guardians to participate with a preliminary signature.
3. The student must acquire permission from each of his/her other subject area teachers in the form of signatures (study halls and lunch are excluded).
4. The form is then checked and approved by the teacher sponsoring the field trip.
5. The finalized form is turned into the sponsoring teacher.
6. Students will not be permitted to participate if the above field trip procedure/form is not completed.

Any of the student's subject area teachers can deny the student permission to attend a field trip if one of the following reasons pertains to the student:

- The student is attaining failing grades in that teacher's class.
- A student has accrued 10 days of absence in that teacher's class (unexcused).

Extenuating circumstances may be reviewed by the building principal.
